## Continued Growth of the Impact Factors of MDPI Open Access Journals

Dietrich Rordorf

MDPI AG, Postfach, CH – 4005 Basel, Switzerland; Office: Kandererstrasse 25, CH – 4057 Basel, Switzerland; Tel. +41 61 683 77 35; Fax: +41 61 302 8918; E-Mail: rordorf@mdpi.com

Received: 18 June 2010 / Published: 21 June 2010

We are pleased to report the continued increase of the Impact Factors of MDPI journals in 2009 (see Table 1 and Figure 1).

Figure 1. Impact Factor Progress 2005-2009

As noted in a similar Editorial published in June 2009, the Impact Factors of MDPI journals have been steadily recovering since the inception of the full Open Access publishing policy in early 2007

Journal of community medicine and public health reports impact factor. Public health journals by impact factor. Low impact public health journals.

**PUBLIC HEALTH REPORTS** is a research journal that publishes research related to Public Health, Environmental and Occupational Health. This journal is published by SAGE. The P-ISSN of this journal is 333549. Also, check the other important details below like Publisher, ISSN, Ranking, Indexing, Impact Factor (if applicable), Publication fee (APC), Acceptance Rate of PUBLIC HEALTH REPORTS. PUBLIC HEALTH REPORTS Ranking Impact Factor: 3.117 Total Citations: 8414 SJR (SCImago Journal Rank): 1.202 Quartile: Q2 The Impact Factor of PUBLIC HEALTH REPORTS is 3.117. The impact factor (IF) is a measure of the frequency with which the average article in a journal has been cited in a particular year. It is used to measure the importance or rank of a journal by calculating the times its articles are cited. The impact factor was devised by Eugene Garfield, the founder of the Institute for Scientific Information (ISI) in Philadelphia. Impact factors began to be calculated yearly starting from 1975 for journals listed in the Journal Citation Reports (JCR). ISI was acquired by Thomson Scientific & Healthcare in 1992, and became known as Thomson ISI. In 2018, Thomson-Reuters spun off and sold ISI to Onex Corporation and Baring Private Equity Asia. They founded a new corporation, Clarivate, which is now the publisher of the JCR. Important Metrics Journal Title: Public Health Reports Publisher: SAGE P-ISSN: 333549 Open Access: NO Subject: Public Health, Environmental and Occupational Health Citescore: 3.5 SNIP: 1.096 SJR: 1.202 Quartile: 2 PUBLIC HEALTH REPORTS Indexing The PUBLIC HEALTH REPORTS is indexed in: UGC CARE Scopus Web of Science (SCIE) Pub Med An indexed journal means that the journal has gone through and passed a review process of certain requirements done by a journal indexer. PUBLIC HEALTH REPORTS Impact Factor 2022 The latest impact factor of PUBLIC HEALTH REPORTS is 3.117. The impact factor (IF) is a measure of the frequency with which the average article in a journal has been cited in a particular year. It is used to measure the importance or rank of a journal by calculating the times its articles are cited. PUBLIC HEALTH REPORTS Quartile The latest Quartile of PUBLIC HEALTH REPORTS is 2. Each subject category of journals is divided into four quartiles: Q1, Q2, Q3, Q4. Q1 is occupied by the top 25% of journals in the list; Q2 is occupied by journals in the 25 to 50% group; Q3 is occupied by journals in the 50 to 75% group and Q4 is occupied by journals in the 75 to 100% group. Visit to the official website of the journal/ conference to check the details about call for papers. How to publish in PUBLIC HEALTH REPORTS? This journal covers the fields/ categories related to Public Health, Environmental and Occupational Health. If your research field is related to Public Health, Environmental and Occupational Health, then visit the official website of PUBLIC HEALTH REPORTS and send your manuscript. Tips for publishing in PUBLIC HEALTH REPORTS? Selection of research problem. Presenting a solution. Designing the paper. Make your manuscript publication worthy. Write an effective results section. Mind your references. Acceptance rate is the ratio of the number of articles submitted to the number of articles published. Researchers can check the acceptance rate on the journal website. Even you can contact the editor of the journal. Journals usually ask reviewers to provide their reviews within 3-4 weeks. However, few journals have a mechanism to enforce the deadline, which is why it can be hard to predict how long the peer review process will take. The review time also depends upon the quality of a research paper. Final Summary The impact factor of PUBLIC HEALTH REPORTS is 3.117. It is published by SAGE. The journal is indexed in UGC CARE, Scopus, SCIE, PubMed. The (SJR) SCImago Journal Rank is 1.202. The PUBLIC HEALTH REPORTS is a reputed research journal. Published since 1878, Public Health Reports (PHR) is the official journal of the U.S. Surgeon General and the U.S. Public Health Service. Currently, PHR is published by SAGE Publishing Inc., through an agreement with the Association of Schools and Programs of Public Health (ASPPH). This peer-reviewed public health journal publishes articles every other month on public health practice, research, training, and writing. PHR also publishes "Surgeon General's Perspectives", in which the U.S. Surgeon General discusses important national public health issues. Read the Surgeon General's Perspectives below. Past issues of PHR are also available. Read our full Security, Privacy, and Copyright Policies. The Impact factor is also known by the name of journal impact factor of an academic journal. It is based on the scientometric index that shows the annual average number of citations. Moreover, impact factor is having all the information which is published in the last two years in the given journal received. What is a good impact factor? Before moving forward, it is essential to know about the necessary information about the impact factor. The definition of impact factor is the number of citations, the articles published in that journal during the last two preceding years, in the given year and divide this by the total number of citable items, which published in that journal in the previous two years. On the other hand, along with the impact factor, it is important to know about the functional impact factor. Well, we all know that watch the numbers and higher will win. But the impact factor works beyond this and shows that numbers are not absolute. In other words, we can say that the higher the impact factor, the higher the rank of a journal. The Public Health Reports Impact factor is 2.039 (2022) Impact factor . Visit for all Journals Impact factor List
